*in sharing intelligence, analysis and assistance with the Kentucky law enforcement community in conjunction with the Kentucky Office of Homeland Security*

### WHY?

New federal guidelines for fusion centers across the nation provide Kentucky law enforcement with an opportunity to more fully develop the give-and-take of information, analysis and mutual assistance provided by the Kentucky Intelligence Fusion Center to you and the information you provide to the fusion center.

### WHY YOU?

As an all-crimes approach to fusion center capabilities becomes paramount -- a primary goal of Gov. Beshear and Sec. Brown -- you, as a law enforcement leader and your staff who serve as field practitioners, have the opportunity in an open forum to voice your needs and concerns while also learning how the fusion center mission, its personnel and your staff can work together to benefit us all.
